

Solution for user error messages:

anupriyam has No Modification Habilitation on PRO/TSF Flow. -> If user encounters this error then it means no access to PRO/TSF Flow. To access this you can add this role in user specific role —> MAJ_FLOW_TSF_SHB

You aren't allowed to do select with portfolio = FX-GY-NOMGT —> If user encounters this error then it means no access to this gop. To access the deal comes under this gop we need to add this gop in Perimeter screen.
